

I am a registered participant for #OLT-22-002377. I had previously submitted a Participant Statement.

In the almost four years since my original statement was submitted, the concerns I had previously raised specifically in regards to the proposed build not respecting the Civic Centre Heritage Conservation District Plan remain as issues. I served as a member of Heritage Kitchener from May 2021 until December 2024 and brought forth my concerns when this proposal was presented at Heritage Kitchener. The applicant has given no consideration to the policies outlined in the community supported and City of Kitchener Council approved and adopted Heritage District Plan.

While I have no issue with a build moving forward at 22 Weber, it should fit in with the unique character of this community and its surroundings. This proposal does not fit.

Kind regards,
Ilona Bodendorfer
